Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic;
Coral and Coral Reefs off the Southern Atlantic States; Exempted
Fishing Permit; Correction

AGENCY: National Marine Fisheries Service (NMFS), National
Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of an application for an exempted
fishing permit; correction; request for comments.

SUMMARY: This document contains a correction to a notice of
receipt of an application for an exempted fishing permit (EFP)
published on April 30, 2012, regarding the South Carolina
Aquarium's application to collect display specimens. The notice
stated that the EFP would authorize the South Carolina Aquarium
to collect, with certain conditions, various species of reef
fish, crabs, and lobsters in Federal waters off South Carolina
and North Carolina. Within the preamble, spadefish was
inadvertently omitted from the list of species proposed to be
collected; as such, the total number of species to be collected
also needs to be corrected. Additionally, the notice stated that
the total number of species would be collected over a period of 5

years; however, the notice for the EFP should state that the total number of species would be collected annually for 5 years. This rule corrects those errors. Due to these corrections, NMFS is extending the comment period until June 15, 2012.

DATES: Written comments must be received no later than 5 p.m., e.t., on June 15, 2012.

ADDRESSES: You may submit comments on the application by either of the following methods:

- E-mail: Kate.Michie@noaa.gov; include in the subject line of the e-mail comment the following document identifier: South Carolina Aquarium EFP.
- Mail: Kate Michie, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

The application and related documents are available for review upon written request to any of the above addresses.
